

It's time to re-evaluate Titan Poker in the light of all the recent changes there. It was, for a long time, a mediocre site at best but all that seems to have changed.

Titan Poker has the best customer service that we have ever encountered. Upon joining, a chat box will open with a live support person asking you if you have any questions. Support is always this easily reachable, friendly and efficient.

We have negotiated a fantastic bonus for Harlequin Poker players, read on.....

- Harlequin has negotiated a special bonus of 100% matched stake money up to \$500 for players who sign up via this [LINK](#) and use the bonus code **deviltitan**.

- Players who use this code and link combination will also receive 'GameCalc' software completely free of charge (usually \$49.99) plus entry into the following exclusive tournaments.
- 4 tokens for new depositors for different tournaments.
- You will be able to join these restricted real money tournaments:

#### BUY INS - \$5 + \$.50, \$150 added - "Titan Exclusive Buy In"

Every Tuesday 20:00 PM EST - last chance to deposit by 24:00 Monday, EST  
 Every Sunday 15:00 PM EST - last chance to deposit by 24:00 Saturday, EST.

#### FREEROLLS - \$250 - "Titan Exclusive Freerolls"

Every Monday 15:00 PM EST - last chance to register at Titan - Sunday 24:00 EST.  
 Every Thursday 20:00 PM EST - last chance to register at Titan - Wednesday 24:00 EST.

#### FREEROLL - \$250 Weekly - "Sunday Private FR"

Every Sunday 18:00 EST - last chance to register at Titan - Saturday 24:00 EST.

Experienced players know that the 100% up to \$500 dollars is not a bad bonus but these bonuses are not usually a good reason to pick a particular site as the terms and conditions usually mean that you will have to play a ridiculous number of hands before you see any of your bonus. This is

not the case with Titan as the bonus actually clears quite fast, its not the easiest bonus of any poker site to clear (the easiest being PKR) but it's close.

The fees are low. For ring game rake fees, they will always range between 0% and 5%, not to exceed \$3 per pot. If a hand ends before the Flop, no rake is applied. This can make a huge difference over time.

In addition to standard credit card deposits, the Titan Poker Cashier accepts a variety of credit card alternatives - most of which can be used to make deposits and receive withdrawals. There is always the option of receiving winnings via checks through certified mail (although this can take considerably longer). Accepted fund transfer methods include:

*Click2Pay, NETeller/NETeller InstaCash,, MoneyBookers, FirePay, OnDemandFunds, Instadebit, PaySafeCard, Citadel/myCitadel, UseMyBank, EcoCard, eWalletXpress, CentralCoin, Wire Transfer, Bankers Draft*

I joined Titan a long time ago but I was not impressed. I live in Europe and upon joining I was given free entry tickets to a long list of tournaments which all turned out to run at 4am European time. I made the minimum deposit, played it and then left and forgot about it. I am glad Harlequin asked me to review the site as I found it has improved immeasurably since then. Apparently this is ongoing with a complete facelift on the way.

Titan focuses on Holdem - there are not many other games, and it is very definitely a low stakes room. Both Limit and No Limit games start at just \$0.02/\$0. The highest Limit games are \$50/\$100 and the highest no-Limit games being just \$25/\$50. Nevertheless there is money to be made here as the action is very loose. The low stakes games attract beginners and that means lots of money for more experienced players. As long as you can wear the inevitable bad beat now and then you will leave the tables richer than when you started. Play tight and don't bluff much.

The Jackpot Sit-and-Go is a great concept and makes the possibility of winning big much more attainable without risking your whole bankroll by sitting down at high stakes tables. For instance their RIO Jackpot Sit-and-Go is just \$2+\$0.40 to enter (12 players). If you win four of these in a row then you get a \$2000 jackpot.

All in all I recommend joining Titan as soon as possible

I joined Titan, made the deposit and started playing straight away; the chat support even checked with me to make sure everything was ok and welcome me to the site. I asked a few questions to see if it was a real person and it was!

I played a few of the Jackpot sit-and-go's and although I didn't win the jackpot I made some money because as well as the jackpot the tournament pays 4 positions. Then I played a couple of their Beginner sit-and-go's, won one and went out of the other one first.

I like the style of play on the ring games but the stakes are real low and I had to jump up the table stakes to make it worth while. I hate hitting a real good straight and then finding that all I won is 7 cents! The \$0.25 / \$0.50 tables are good though, and still real loose.

This is a very fun site to play, you can win a lot without risking much cash. I recommend using the 'Buddy lists' and the find a friend function to follow the really loose players from table to table – they hate this but it is easy money.
